

SHETH L.U.J AND SIR M.V COLLEGE

Practical No :- 20

Aim:Wireless Sensor Network Deployment and Coverage Analysis

Simulate random and grid deployment of sensor nodes and evaluate network coverage and connectivity.

CODE:

```
aqub@ubuntu:~/all remaining practicals/wireless sensors deployment and coverage$ ns wsn.tcl
When configured, ns found the right version of tclsh in /usr/bin/tclsh6.0
but it doesn't seem to be there anymore, so ns will fall back on running the first tclsh in your path.
The wrong version of tclsh may break the test suites. Reconfigure and rebuild ns if this is a problem.
num_nodes is set 9
warning: Please use -channel as shown in tcl/ex/wireless-nttf.tcl
INITIALIZE THE LIST xListHead
Starting WSN Grid Deployment Simulation...
channel.tcc:sendup - Calc HighestAntennaZ and distCST_
highestAntennaZ = 115, distCST_ = 550.0
SORTING LISTS ...DONE!
aqub@ubuntu:~/all remaining practicals/wireless sensors deployment and coverage$
```
